Editorial

Vol. 2 No. 11 November 2024

We are pleased to present the inaugural issue of the Indonesian Journal of Integrative Research (IJIR), a platform dedicated to advancing interdisciplinary scholarship and fostering collaboration across diverse fields of study. This journal was founded on the principle that innovation and meaningful progress often emerge from the intersection of disciplines, where new ideas and approaches can take shape.

The IJIR seeks to unite researchers, practitioners, and thought leaders in the pursuit of solutions to complex, real-world challenges. By integrating perspectives from fields such as science, technology, social sciences, humanities, and beyond, this journal aims to offer a rich and dynamic collection of knowledge that reflects the interconnected nature of our modern world.

In this inaugural issue, we feature contributions that embody the essence of integrative research, showcasing studies and discussions that bridge academic disciplines and address pressing societal needs. These articles not only highlight the diversity of Indonesian and global research but also emphasize the importance of collaboration in achieving impactful outcomes.

We extend our deepest gratitude to the authors, peer reviewers, and the editorial board for their dedication and hard work. Their contributions ensure that the IJIR upholds the highest standards of academic excellence and integrity. Additionally, we thank our readers for their interest and engagement, as your support is crucial to the success of this journal.

We hope that the Indonesian Journal of Integrative Research will serve as a valuable resource and a catalyst for dialogue, discovery, and innovation. Together, let us embrace the spirit of collaboration and integrative inquiry to tackle the challenges of today and build a brighter future.

Happy reading

Marisa Yunita, S.Pd., M.M
